EDUCATION

Rochester Institute of Technology

Bachelor of Science in Cybersecurity, Minor System Administration

Rochester, NY

Expected: Dec 2026

EXPERIENCE

Home Improvement Contractor

Oct 2021 - Present

- Seasonal employment applying skills in carpentry, drywall, painting, flooring, tiling, and landscaping to assist in renovation projects at customer owned rental properties.
- Volunteered 200+ hours supporting community home restoration projects, working with diverse teams to improve living spaces for those in need.

PERSONAL PROJECTS

Freddie L. Jackson Citizenship Award: *Founder / Active Manager*

Jan 2022 - Present

- Launched the Freddie L. Jackson Citizenship Award to support underrepresented students, designing an inclusive evaluation framework and providing guidance to applicants.
- Distributed \$1,000+ to underrepresented students attending West Haven High School, CT.

Misconfigured Windows Attack Lab

Mar 2025

- Designed and deployed a vulnerable Windows environment featuring multiple attack vectors (RCE & weak authentication) by intentionally misconfiguring security settings to replicate real-world scenarios.
- Validated the environment's exploitability through testing with tools such as Nmap and Metasploit, and employing various privilege escalation techniques.

Virtual Domain & Network Infrastructure

Dec 2024

- Established and managed core Windows Server infrastructure (Active Directory, DHCP, DNS, pfSense) to support Windows and Linux clients, including users, OU, and GPO management.
- Implemented secure file sharing solutions by configuring remote Git repositories, a secure vsftpd server, and evaluating rsync, FTP, Samba, and NFS protocols.
- Deployed a secure Apache web server with SSL/TLS encryption to protect user login and information.

EXTRA-CURRICULAR ACTIVITIES

RITSEC (Cybersecurity Club)

Fall 2023 - Present

- Active member of RIT's largest academic club, dedicated to student cybersecurity development through student-led education, research, interest groups, and competitions.
- Participated in computing competitions including: Incident Response Competition (IRSEC) and Information Security Talent Search (ISTS) - Blue and Black team

University of Buffalo Lockdown: *1st/14 - Incident Response Analyst / Team CTF Lead*

Spring 2025

- Led incident response efforts, collaborating with teammates to recover compromised systems, design automated scripts, and maintain operational continuity under tight timelines.
- Analyzed malware, reported breaches, and enhanced cybersecurity skills through Capture The Flag (CTF) challenges focused on attack and defense strategies.

CORA II: *1st/18 - Penetration Testing Analyst*

Fall 2024

- Applied penetration testing methodologies and analytical skills to identify, document, and provide an actionable remediation plan for security vulnerabilities.
- Conducted rigorous testing to assess and contribute to the hardening of systems, improving their overall security posture and resilience against potential attack vectors.

TECHNICAL SKILLS

Operating Systems: Windows, Linux (RedHat, Ubuntu, Kali), pfSense

Coding Languages: Python, Java, C, Powershell, Bash, MySQL, x86 Assembly

Tools: Git/Github, Visual Studio/VSCode, Wireshark, Metasploit, Nmap, Data Dog, Autopsy, Ghidra
